2 Ownership & Explicit Guarantee Structure

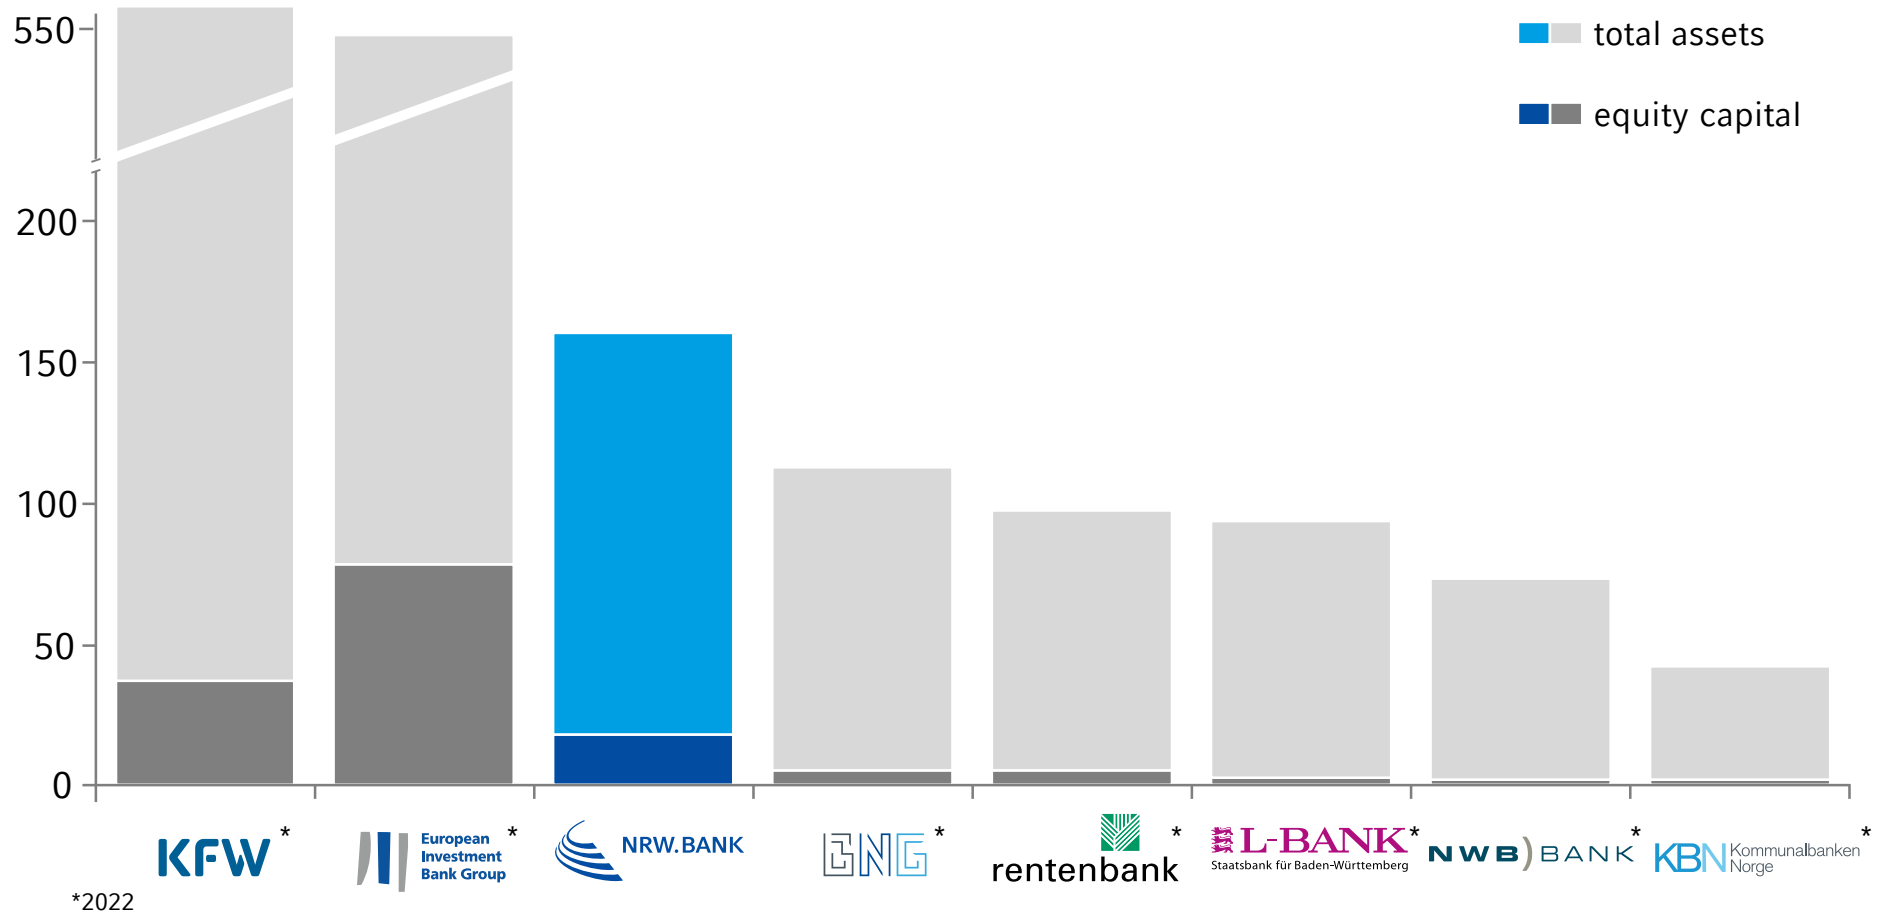

2 Refinancing Guarantee for NRW.BANK

The guarantee is payable upon first demand. Thus, a timeliness of payment is warranted.

2 NRW.BANK No. 3 in Europe

Total Assets in EUR billions (as of December, 2023)

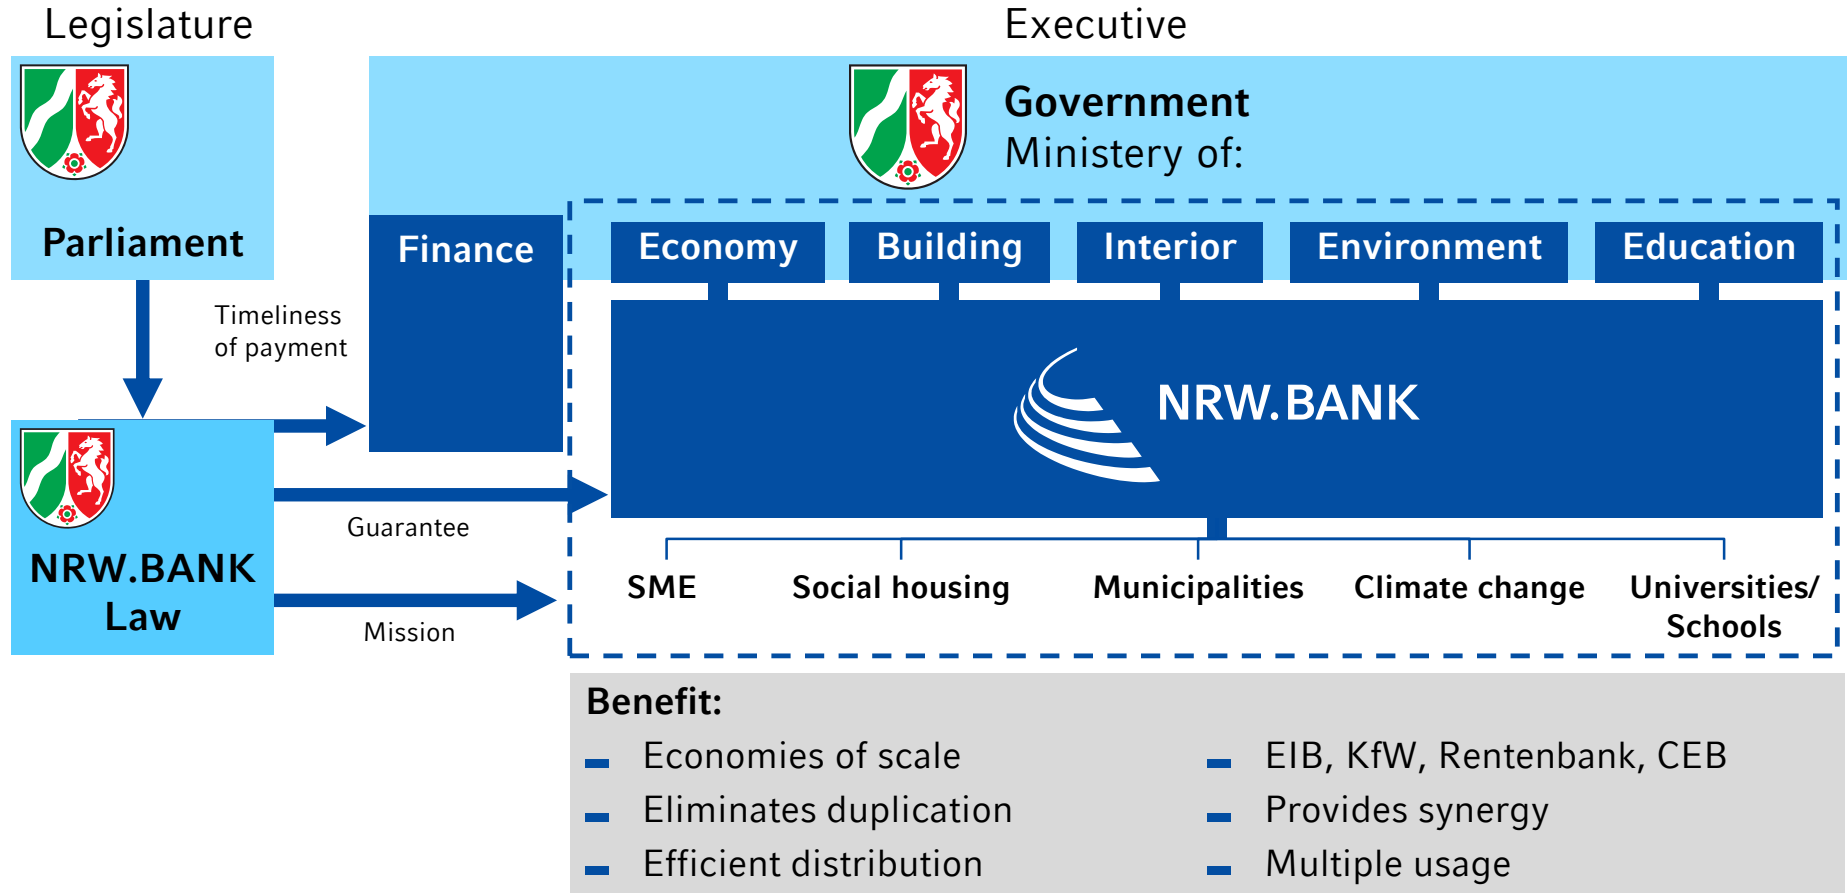

2 NRW.BANK Increase Reserves and Development Lending

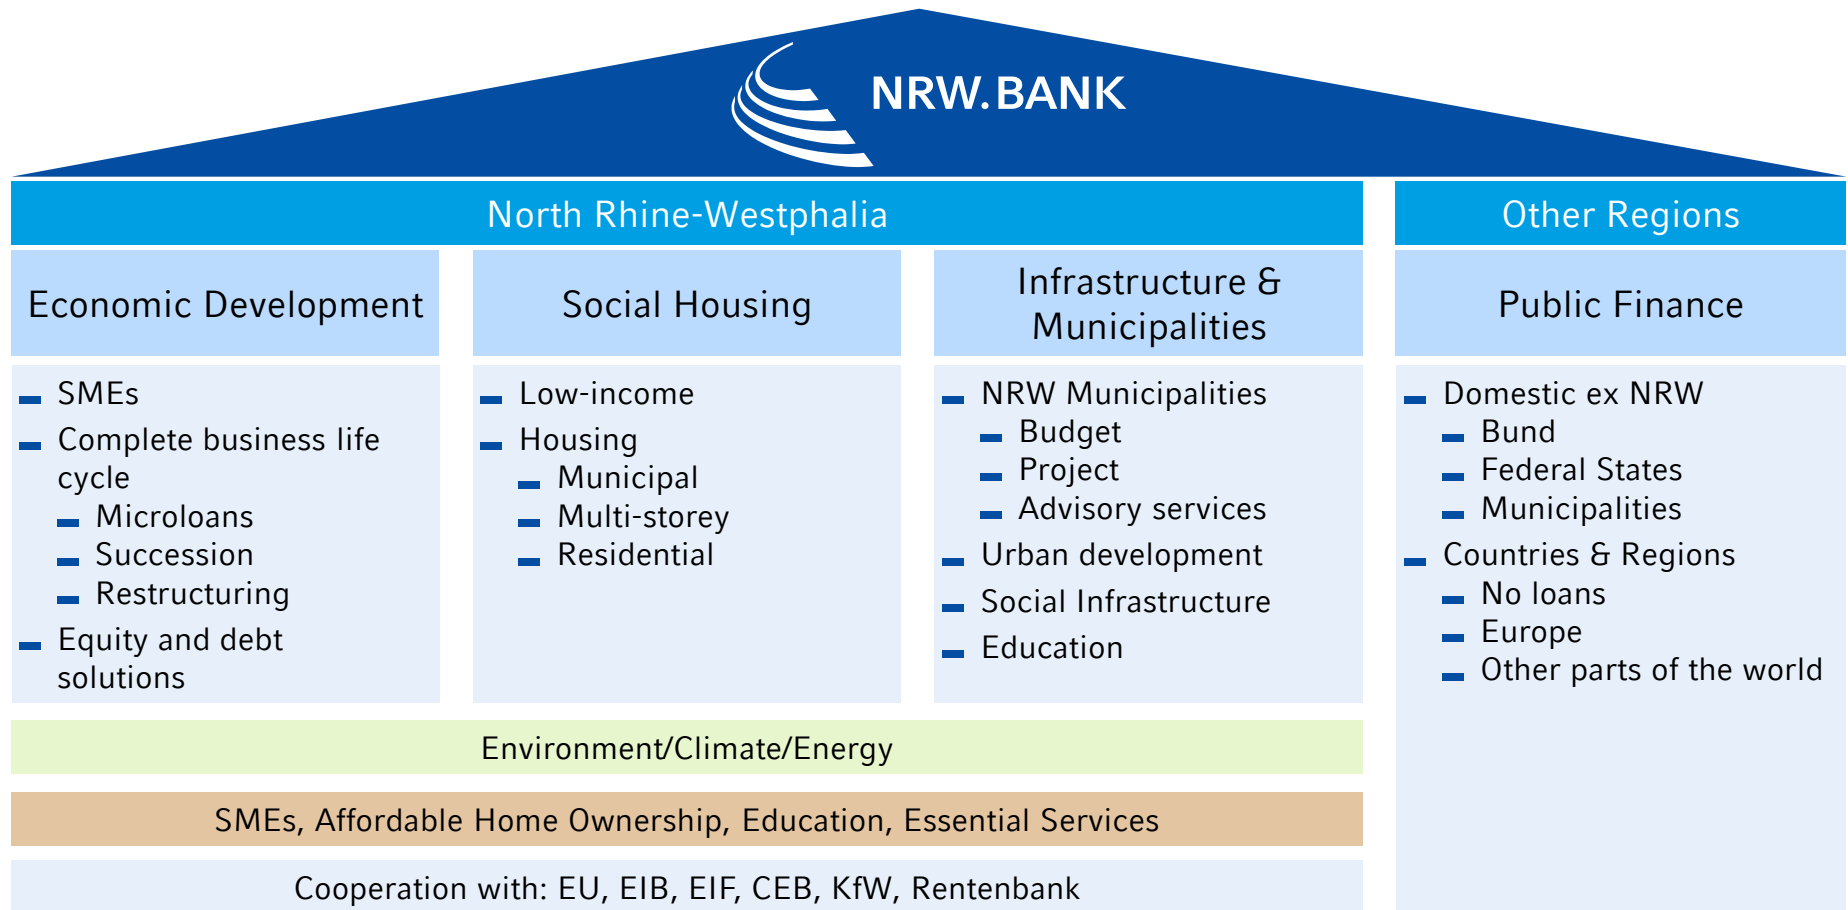

- Revenues used for
 - banking operations
 - subsidizing loans
 - strengthening of reserves
- Strict cost control
- Modern agency:
 - self-sustainable
 - no allowance from NRW budget
 - no dividend pay-out policy
- NRW.BANK remained strong throughout
 - financial crisis (2007-2009)
 - sovereign debt crisis (2010-2016)
 - low interest rate period (2012-2022)
 - coronavirus pandemic (2020-2022)
 - Russian aggression (2022 – today)
 - gas (price) crisis (2022 – today)

2 NRW.BANK Firmly Anchored in Executive Branch

2 Core Business Segments of NRW.BANK

2 Focus on Core Business

- Public sector and development business are dominating with over 85% of total assets
- Almost 70% are Germany related
- More than 55% are NRW related
- Other breakdown
 - 3/4 covered bonds or senior preferred bank bonds
 - 1/4 corporate risk

- ESG strategy within NRW
 - Exclusion criteria for loans
 - Circa 1/4 of NRW exposure is green
- ESG strategy beyond NRW
 - MSCI Screening
 - Gradual implementation of ITR concept

Refinancing Guarantee for NRW.BANK

Dear Sirs,

The Ministry of Finance of the State of North Rhine-Westphalia, acting through its legal department, confirms the effect of the statutory refinancing guarantee for NRW.BANK as set out below.

Article 1, Section 4 paragraph 3, sentence 3 of the “Act on the Reorganisation of Landesbank Nordrhein-Westfalen into the Development Bank of the State of North Rhine-Westphalia” dated 16 March 2004 NRW.BANK (formerly: Landesbank Nordrhein-Westfalen) provides for an explicit refinancing guarantee for certain debts of NRW.BANK. Guarantors are the State of North Rhine-Westphalia, the Local Association of Westphalia-Lippe and the Local Association of the Rhineland (the “Guarantors”). The Guarantors are jointly and severally liable for loans raised by, bonds issued by and money borrowed by NRW.BANK as well as all fixed financial forward contracts and options entered into with NRW.BANK (hereinafter “Transactions”). The refinancing guarantee is explicit, unconditional, irrevocable and for an unlimited period. Accordingly, each cash flow, including principal and interest rate payable from a NRW.BANK bond benefits from the guarantee until its final maturity. The guarantee is payable upon first demand. Thus, a timeliness of payment is warranted.

This statutory refinancing guarantee can be revoked, restricted or amended by Act of Parliament of the State of North Rhine-Westphalia only. Any revocation, restriction or amendment would, however, only apply to future Transactions, entered into with NRW.BANK after the enactment of the law. Accordingly, each Transaction entered into with NRW.BANK before the enactment of the law is covered by the state guarantee until its final maturity.

On behalf of the Ministry of Finance of the State of North Rhine-Westphalia

Gerhard Heiligenberg
Legal Counsel

Beiglaubigt
Angestellte

Appendix – Tasks Pursuant to the NRW.BANK Act (29.12.2023)

Section 3(2) in order to fulfil its mandate, NRW.BANK operates in the following development areas:

- SMEs and business start-ups
- Social housing promotion, housing industry and home ownership
- Provision of risk capital
- Development of cities and municipalities
- Infrastructure
- Agriculture and forestry, rural areas
- Environmental and climate protection, climate adaptation
- Technology, innovation and digitalization
- Social affairs
- Education, culture, sport and science
- Internationally agreed development programmes

Appendix – Federal Revenue Allocation 2020 et seq

- Recalibrated system to equalise Länder finances will go into effect January 1st 2020
- Principle of solidarity remains strong and unchanged
- Agreement reached on 14.10.2016:
 - Fiscal Capacity Equalisation (FCE) instead of:
 - Inter-State payments
 - Horizontal flows
 - FCE via VAT revenues
 - Larger contribution by the Bund: EUR 10.2 billion p.a.
 - ➔ North Rhine-Westphalia receives: EUR 1.5 billion p.a.
 - Bund solely responsible for the German “Autobahn” network
 - Stability council strengthened

Appendix – The Many Facets of the German Federal System

- Taxes – shared taxes dominate
 - 70% of total tax receipts are derived from shared taxes (i.e. income tax, withholding tax, sales tax, corporate tax)
 - The Länder are responsible for imposing and collecting the general taxes
- The constitution – Chapter II defines the relationship between the Bund and Länder
 - The Federal Republic is a federal state (Art. 20)
 - Federal law has precedence over State (Länder) law (Art. 31)
 - The Länder's constitution should not conflict with that of the Federal Republic (Art. 28)
 - Federal authority over the Länder used by the Federal government to discipline the Länder (Art. 37)
- Legislative – The lower house and the upper house form a bicameral parliament
 - Both chambers have the right to introduce bills (Art. 76)
 - Approximately 40% of federal legislation require consent to become law
 - All laws that affect the Länder budget require their assent

Appendix – The Many Facets of the German Federal System

- Historical perspective – The Länder form the Bund
 - The Länder were established between 19.09.1945 and 21.01.1947
North Rhine-Westphalia was established on 18.05.1946
 - With the enactment of the German constitution on the 23.05.1949 the West German Länder created the German Federation; Saarland joined on 01.01.1957
 - The East German Länder joined the Federation on 03.10.1990
- D-Mark – the legal tender
 - The Deutsche Mark was introduced on 21.06.1948 by the Bank deutscher Länder (BdL)
 - Central bank system with 2 levels; autonomous Länder central banks hold the BdL's capital
 - From 26.07.1957 one issuer: Deutsche Bundesbank
 - Implementation of, as in the constitution defined (Art. 73) division of power → The Länder central banks are converted into regional branches

Appendix – The Many Facets of the German Federal System

- Principle of subsidiarity as a core philosophy – it asserts the rights of the parts over the whole in that higher levels of government are only allowed to legislate in areas where the lower levels would be ineffective (Art. 72)
 - The Bund is therefore responsible for all powers that are in the common interest and of common use of the whole (defence, freedom, currency and money, postal and telecommunication services, infrastructure, social security) as defined in Art. 73
 - The Länder are allotted as listed in Art. 74 all tasks that are more appropriately handled at a regional level (culture, education, inner security, regional infrastructure)
- The principle of subsidiarity
 - Allows for regional solutions
 - Respects historical differences
 - Encourages competition between regions
 - Is citizen-oriented
 - Avoids an inefficient centralised administration

Appendix – Rating Agencies on German Public Sector

- **Fitch**

Fitch considers that the system under which the Länder operate carries an AAA risk, and has therefore assigned (implicitly) an AAA rating to each of the German Länder. Länder risk is equalized throughout the country and is similar to the sovereign rating. Fitch justifies its reasoning mainly on the basis of the historical structure of German federalism, provisions in the Constitution including the Bundestreuekonzept (solidarity principle). In the Fitch world the weakest rating for a German Land is a AAA.

- **Moody's**

Moody's looks at the Bundestreuekonzept (solidarity principle) and federal revenue equalisation scheme and uses it as a kind of floor. No German Federal State is rated below Aa1 – one notches below the federal level to underpin Länder ratings.

- **Standard & Poor's**

S&P ratings differentiate between states. First, S&P looks at the Bundestreuekonzept (solidarity principle), but does not use it as an (implicit) floor to underpin Länder ratings. Then S&P assesses the Länder budget balances. S&P Ratings for German Länder fluctuates between AAA and AA.
